

## Sitemap A4

Having logged-in, follow these simple steps to produce an A4 OS Sitemap.

In the 'Locate an Area' tab, you can search for location by Postcode or Address (Postcode is not required when using the Address Option).

**(1)** In the 'Define Product' tab and 'Product' mode - the map product defaults to 'Sitemap Customised PDF'

To choose Sitemap A4 do the following:

**(2)** With 'Sitemap' already selected, change the size to 'A4'

**(3)** Then choose a scale (1:500, 1:1250 or 1:2500)

**(4)** Sitemap A4 is available in two formats – please specify 'PDF' for prints or 'TIFF' for raster data/e-mail

**(5)** Your last choice is your colour selection: Full Colour Fill, Building Fill or Monochrome – select the one you require.

**(6)** Press the 'Go' button to proceed with your selection.
